LAB OBSERVATION

EXPERIMENT-14

14) Develop a flowchart in Figma explaining the operation of General Packet Radio Service (GPRS).

Answer)

Aim:

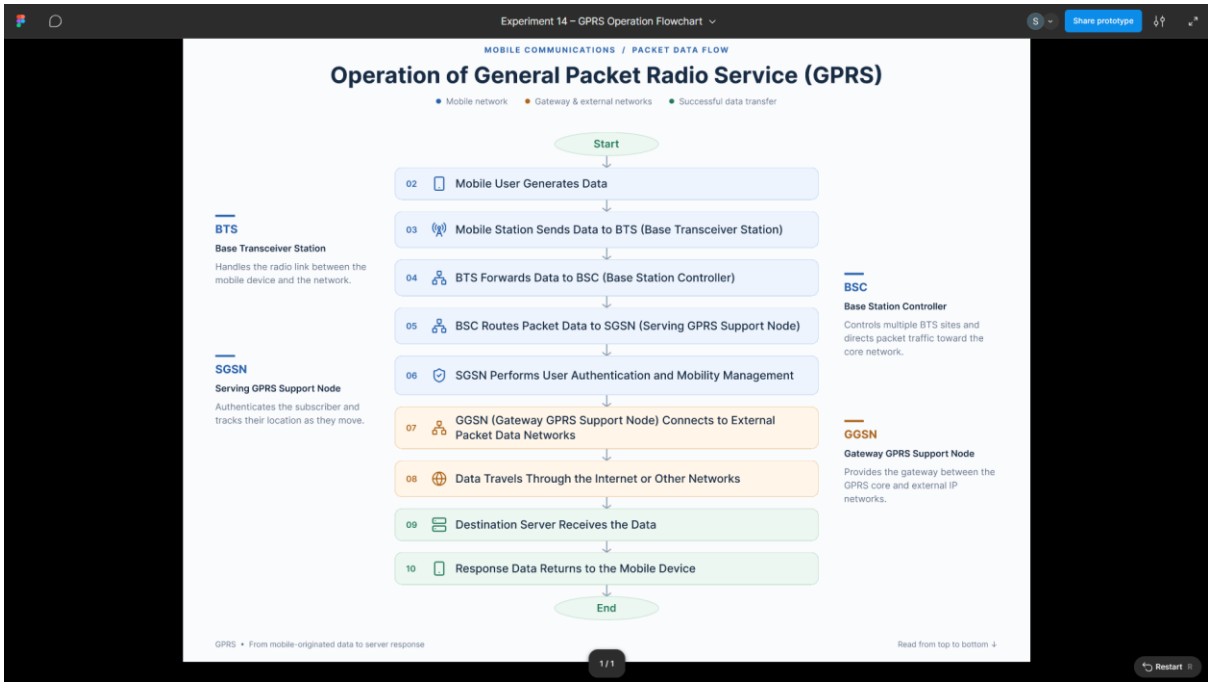

To draw a flowchart in Figma explaining the operation of General Packet Radio Service (GPRS).

Procedure:

1. Open Figma.
2. Create a new design file.
3. Select a suitable frame for the flowchart.
4. Add the title “Operation of General Packet Radio Service (GPRS)”.
5. Create flowchart shapes representing the different stages of GPRS operation.
6. Show the flow of data from the mobile station through BTS, BSC, SGSN, and GGSN to the external packet data network.
7. Connect all the shapes using directional arrows in the correct sequence.
8. Add labels and brief explanations for the network components.
9. Apply suitable colors, icons, and formatting to improve readability.
10. Review the flowchart, make necessary corrections, and save the Figma file.

Output:

A flowchart illustrating the operation of GPRS, showing the data transmission process through the mobile network components and the external packet data network.

Result:

The flowchart explaining the operation of General Packet Radio Service (GPRS) was successfully designed in Figma.
